Jet Boy Blue

Jet Boy Blue You steal and you think that it's right Like a thief in the night Ah, oh yeah I'll tell you it's true You come around with your stories to tell I don't hold no int'rest But I let you go I know you've fallen under his spell Don't let him kill you He'll only fill you with lies You're a fool and you know it Done your best not to show it But it's all over You're through Jet Boy Blue He'll only take you for a ride Only cost you your pride Jet Boy Blue

Stop, stop while you're still ahead You've got a lot to learn You're still so young Listen to what your mama said

Try to tell you go to hell You're just a kid Don't take no advice, you never think twice Close the door Jump in, don't mention what you did

Stop, stop while you're still ahead You've got a lot to learn You're still so young Listen to what your mama said

You're a fool and you know it Done your best not to show it But it's all over You're through Jet Boy Blue He'll only take you for a ride Only cost you your pride Jet Boy Blue

Stop, stop while you're still ahead You've got a lot to learn You're still so young Listen to what your mama said

Jet Boy Blue You steal and you think that it's right Like a thief in the night
