

Never Be Lonely

America

Got you by my side
I'll never be lonely
Got you by my side
I'll never be afraid
Never be lonely anymore
Turn away the fools from my door
Always wanna be your one and only
Never be lonely

Spent a lot of time
Waitin' to find you
Spent a lot of time
All on my own
Could've gone a thousand different ways
Watching my nights turn to days
Always wanna be your one and only
Never be lonely

Here in the middle of now or never
Finally found where I belong
I could go on like this forever
Looking at you, looking at you

Wasn't I the one
Love never came to
Wasn't I the one
So misunderstood
All because my heart wasn't sure
Never felt a love like this before
Always wanna be your one and only
Never be lonely

Here in the middle of now or never
Finally found where I belong
I could go on like this forever
Looking at you, looking at you

Got me by your side
Never be lonely
Got me by your side
Never be afraid
And I will not let you down
Keeping both feet on the ground
Always wanna be your one and only
Never be lonely

Never be lonely
Never be lonely
Never be lonely
Never be lonely
Never be lonely
