

Saturn Nights

America

One more song about movin' along the highway
Feel the fantasy in the air

(Ah...)

Filled the room with flowers from Norway
Sensed her majesty in the air
Made a sign 'bove your doorway, to show I care

I've been waiting every morning
Just to help you find your way
I've been standing on your corner
(Don't go away) Don't go away

One more song about movin' along the highway
Feel the fantasy in the air

I've been waiting every morning
Just to help you find your way
I've been waiting every morning
Help me make it through the day

I've been waiting every morning
Just to help you find your way
I've been waiting every morning
Help me make it through the day

I've been waiting every morning ...
