

See How The Love Goes

America

I can hear somebody knockin'
On my bedroom door
I find it rather shockin'
It's my best friend's girl

(Oo) Imagine my surprise
There's a hungry look in her eyes
See how the love goes
Anybody here know how the love goes

She said, I'm feelin' kinda lonely
And only you will do
Would you like to get to know me
Like I wanna know you

(Oo) No tellin' what a man will do
Face to face with a woman like you
See how the love goes
Anybody here know how the love goes
Oh yea, see how the love goes

I can hear her calling (calling)
But no one understands her (no one understands)
Beggin' me to let her in
And she's waiting for my answer

Should I open up the door
And let trouble walk in
Should I resist her even more
Or tell her, come on in

(Oo) No tellin' what a man will do
Face to face with a woman like you
See how the love goes
Anybody here know how the love goes
Oh yea, see how the love goes
Anybody here know how the love goes
Oh yea, see how the love goes
Anybody here know how the love goes
