

Special Girl

America

Into each life, a little sunlight wants to shine
Let me tell you, a fortune like that once was mine

She was a special girl
She meant the world to me
I gave her everything

When I found her, I'd been looking everywhere
When I lost her, I was lost beyond despair

She was a special girl
She meant the world to me
I gave her everything

Dreams are hard to take
(Dreams are hard to take)
Could it be I loved her too much?

A special girl
A special girl
She was a special girl

She was a special girl
She meant the world to me
I gave her everything

Bottom line is, she was fine in every way
And it's not with hesitation that I say

She was a special girl
She meant the world to me
And I gave her everything

Dreams they come and go
(Dreams they come and go)
But thoughts of her are like a floor show

A special girl
A special girl
She was a special girl

She was a special girl
She meant the world to me
I gave her everything
