

# You Could've Been the One

America

There's a bright light that's shinin' in your face  
You can't even see me at all  
Oh, you look like an angel out of place  
At this downtown devil's bar

Do you wanna dance girl  
You said no thanks  
And I watched you drift away  
Well, you had your chance

You could've been the one  
Tonight you could've been the only one  
For the rest of my life  
I'll be dreamin' of you when this dance is done  
Knowin' you could've been the one

If I come back here I might see you again  
And maybe you'd say yes  
But it's a losin' game I'm tryin' to win  
And I can only guess

Do you have somebody watchin'  
Who watches you  
As you let down your hair  
By the light of the moon

You could've been the one  
Tonight you could've been the only one  
For the rest of my life  
I'll be dreamin' of you when this dance is done  
Knowin' you could've been the one  
Knowin' you could've been the one

Where do you go when the night ends  
Are you just a dream that fades into gray  
Visions of you will not leave me alone  
Why did you have to turn away

You could've been the one  
Tonight you could've been the only one  
For the rest of my life  
I'll be dreamin' of you when this dance is done  
Knowin' you could've been the one

Tonight you could've been the only one  
For the rest of my life  
I'll be dreamin' of you when this dance is done  
Knowin' you could've been the one

Tonight you could've been the only one  
For the rest of my life  
I'll be dreamin' of you
