Built for Speed

American Hi-Fi

She's on fire like a rocket spinning out of control Try to stop her but you just don'tknow How to keep it inside Can you keep on turning out I'll wait for my turn Same old story coz you never learn Gotta make it in time

She don't know what she does to me The girl got soul and rhythm in between I crash and burn like every other time She's my little rock n roll queen I got a girl like that My baby's built for speed

Shoot to kill built to spill Got a mind take your pills But your never gonna get to what thrills All of us inside Can you put the pedal to the metal this time You gotta want it like I want it alright We gotta start tonight

She don't know what she does to me The girl got soul and rhythm in between I crash and burn like every other time She's my little rock n roll queen I got a girl like that My baby's built for speed

She's on fire like a rocket spinning out of control Try to stop her but you just don'tknow How to keep it inside

She don't know what she does to me The girl got soul and rhythm in between I crash and burn like every other time She's my little rock n roll queen I got a girl like that My baby's built for speed

I got a girl like that My baby's built for speed

Yeah my baby's built for speed (2x)
