

Bullet

American Hi-Fi

Waking like the dead
just cant understand,
Choking on the air
we breathe, i'll breathe you in,
I know im not alone
just how far it goes is anybodys guess
Criminal is more the less..

R: Your a memory a never needed
your a bullet in my head,
Your a memory a never needed
your a bullet in my head

Ohhhh.....
Ohhhh.....
Ahhh.....

The day comes the time
We have to face the sun,
Its getting harder to survive
its more then 21,
Wonder if you know
just how far it goes before the star collide
black and bruse and scarifide

R: (2x)

Finally stopped believing
Would you crawl across the ceiling
like I want you too,
Cover up the black out
brasing for the fall out
like you want me to...
