

# Don't Wait for the Sun

American Hi-Fi

I don't need to know why  
Cause tomorrow I'll be fine  
I should learn to be still  
If I close my eye I'll realize what you meant

Don't wait for the sun  
It could turn black any day  
I lost my head in the clouds  
When will the haze go away  
I never wanted this

Now it's all I've got  
Someone else is keeping time  
I think I'm falling apart  
If you were me would you do it like I do

Don't wait for the sun  
It could turn black any day  
I lost my head in the clouds  
When will the haze go away  
I never wanted this

Don't wait for the sun  
It could turn black any day  
I lost my head in the clouds  
When will the haze go away  
I never wanted this

So don't wait for the sun  
Don't wait for the sun  
Don't wait for the sun  
It could turn black any day  
You're all that I wanted
