

Fight the Frequency

American Hi-Fi

Pirate satellite transmission
A truth is power if you listen (so listen)
With radiation low
This ghost becomes my skin and bones
Our future lies in sound and visions, collision

This is our time to shine
I feel us breaking free.
Start static on a chain reaction
We can't fight the frequency.
This is a new day rising
I feel it coming on
Detonate, detonate the signal
Transmission turn me on.

Silence, silver constellations
Feel the night above the nations, we're waiting
Surrender to the sky
A flick of flame before we die
Future fire never burn out, don't burn out.

This is our time to shine
I feel us breaking free.
Start static on a chain reaction
We can't fight the frequency.
This is a new day rising
I feel it coming on
Detonate, detonate the signal
Transmission turn me on.

Hold on to, this sunrise
We all want, a better life

This is our time to shine
I feel it breaking free
