

# Golden State

American Hi-Fi

I got lost in the delirium  
I couldn't read all the chemical signs  
You paint a picture of deception  
You played the part of the blushing bride  
It's just another sad story  
I see your face in a different light

Who are you?  
Can you settle it either or  
I go back and for?  
Who are you?  
What am I fighting for?  
I just gotta know

Tomorrow is a lonely place  
And this is not my crime  
Believe in the Golden State  
'Cause I'll never change your mind  
I don't wanna lie you anymore  
I don't wanna feel the way I did before

Bitter words break the silence  
Promises get erased in time  
A new day on the horizon  
It's getting hard to read between the lines

I could never sell you out now  
You already feel so justified

Who are you?  
Can you settle it either or  
I go back and for?  
Who are you?  
What am I fighting for?  
I just gotta know

Tomorrow is a lonely place  
And this is not my crime  
Believe in the Golden State  
'Cause I'll never change your mind  
I don't wanna lie you anymore  
I don't wanna feel the way I did before

Who are you?  
Can you settle it either or  
I go back and for?  
Who are you?  
What am I fighting for?  
I just gotta know  
I just gotta know

Tomorrow is a lonely place  
And this is not my crime  
Believe in the Golden State  
'Cause I'll never change your mind  
I don't wanna lie you anymore  
I don't wanna feel the way I did before

I don't wanna feel the way I did before
