

Killing Time

American Hi-Fi

If you can tell your right from wrong
How will you find the time
To realise you live the perfect crime

If you're not willing to confess
There's no-one left to blame
Save your breath in case I change my ways

You can't ignore the warning signs
Either way it's killing time
Another day in paradise
Now I've got you in my sight

Stop the clocks and change my name
You poison the approach
Heaven in the air is hell below

Now I'm not willing to confess
There's no-one left to blame
Save your breath in case I change my ways

You can't ignore the warning signs
Either way it's killing time
Another day in paradise
Now I've got you in my sight

Hey oh
Hey oh

If you can tell your right from wrong
How will you find the time
To realise you live the perfect crime

Now I'm not willing to confess
There's no-one left to blame
Save your breath in case I change my ways

Yeah

You can't ignore the warning signs
Either way it's killing time
Another day in paradise
Now I've got you in my sight

Hey oh
Hey oh
