

My Only Enemy

American Hi-Fi

I don't ever try
To keep the love alive
I've found the frequency
You sucked it out of me
I'm not the only one
To hold a smoking gun
You felt the gravity
You think you're finally free

I don't even know
Which way it oughta go
Get out before you drown
Before they bring us down
It's all inside of me
My only enemy
You sucked it out of me
You fucked it outta me

Watch the world turn on
Watch the world turn on
Watch the world turn on
My only enemy

I want it all before you go
I want it all before you go
I want it all before you go

I don't ever try
To keep the love alive
I've found the frequency
You sucked it out of me
You sucked it out of me
You sucked it out of me
My only enemy, my only enemy
Watch the world turn on
Watch the world turn on
Watch the world turn on
My only enemy, my only enemy
My only enemy, my only enemy
My only enemy
Well fuck you, well fuck you
