

## I Don't Mind

American Steel

Ill be sure to roll off your back  
so that i'm not on your mind  
i stick my hands in my back pockets  
and stare back what you dont feel  
you dont feel alive? might as well be dead?  
im not impressed by threats  
im walking away alone  
biting my lip bidding my time

you can slit your wrists  
you can hold your breath  
i don't mind  
if you slit your beatless wrists  
if you hold your bestilled breath  
i don't mind  
how you're killing your time

i loved you alive i'll love you dead  
go ahead  
i can't promise ill cry  
but ill always try  
since im not around  
how will you kill time  
theres no me no subtlety  
theres no tears left  
im so over reflection  
biting my liip bidding my time

you can slit your wrists  
you can hold your breath  
i don't mind  
if you slit your beatless wrists  
if you hold your bestilled breath  
i don't mind  
how you're killing your time
