

## Turn It Out

American Steel

constellations of corpses  
hovering hateful hymns  
intimate our world dangerous  
we smile kisses as if  
we'll see each other again  
turn it out  
id-bunkered silence  
turn it out  
what on earth  
could make you wait so long  
turn it out  
your baited expectations  
turn it out

hollow snaps of misdirected anger  
ricochet pumiceous concrete  
you're not a threat like tet  
lonely mi lai no one left to cry

turn it out  
id-bunkered silence  
turn it out  
what on earth  
could make you wait so long  
turn it out  
your baited expectations  
turn it out
