

# All Roads

Amerie

When I least expect it  
The unexpected  
When I wasn't looking  
When I had no hope

When I stop believing  
When I lost my place  
It was there I found you  
And I found my way

All roads lead to you  
No matter where I am  
I know that you are standing by my side  
All roads lead to you  
No matter where I've been  
I know you've always been my guiding light

And how'd you know that  
I'd be here with you (here with you)  
How did you see that nothing could replace ya (nothing's gonna replace you)  
'Cause no matter where I turn  
Yes it all came back to you (you)  
And no matter what may come  
I know that you'll be here to see me through

All roads lead to you  
No matter where I am  
I know that you'll be standing by my side  
All roads lead to you  
No matter where I've been  
I know that you have been my guiding light

I search to find  
High and low  
For something that was missing  
It took some time  
For me to see

Just where my life was leading  
No looking back  
A new beginning's waiting  
And now I know  
I never ever have to be alone

All roads lead to you  
No matter where I am  
I know that you'll be standing by my side  
All roads lead to you  
No matter where I've been  
I know you've always been my guiding light

All roads lead to you  
All roads  
I know you've always been by my side  
All roads lead to you (i know)  
I know it  
I know you've always been my guiding light

Oh yeah  
Oh yeah  
All road lead to you
