

# Float

Amerie

I can't explain it (whoa)  
The way you make me feel (waiting)  
The way you hold me (oh)  
The way you kiss me (yeah)  
(Yeah whoa)

Why  
Why did I even tell u lied  
Quietly I smile at your sweet reply  
And as my eyes close  
The ground beneath disappears  
And all over again I feel a love  
I know is real, so real

So high i can't look below  
When you say my name I lose control  
And I start to float  
For you I float  
And I never want this feeling to go  
I touch the sky and realize  
One look in your eyes  
I float

And I'm wonderin if maybe you feel the same  
Or am I all alone  
Cause I'll pay almost any price  
For the way you bring my heart to life, no lie  
I'm flying, I'm flying, I'm flying  
Finally could it be your love (Finally)  
Specially made for me (Specially made for me, yeah oh)  
You see there's no one else  
Who makes me feel the way you do  
And I'm just ready (Ready)  
Ready and waiting (Waiting)  
Waiting for you

So high i can't look below  
When you say my name I lose control (yeah yeah yeah yeah yeah yeah yeah yeah  
yeah)  
And I start to float  
For you I float (Oh)  
And I never want this feeling to go (oh no, I never felt this way before)  
I touch the sky and realize (yeah yeah)  
One look in your eyes (Don't leave me baby no no no no no no no no)  
I float

So high i can't look below (yeah)  
When you say my name I lose control (oh)  
And I start to float  
For you I float (And everything you do)  
And I never want this feeling to go  
I touch the sky and realize (You make me feel so good hey)  
One look in your eyes (yeah)  
I float

Huh huh hey, Yeah  
Huh hey hey hey

Huh yea hey, Stop  
Yeah yeah, come here  
Come alittle bit closer  
Yes, right there  
For real  
I know you feel the same way  
I see the way u look at me  
Uh huh, yes  
Never want this feeling to go away

So high i can't look below  
When you say my name I lose control  
And I start to float  
For you I float  
And I never want this feeling to go (You got me)  
I touch the sky and realize (Said you got me where u want me baby)  
One look in your eyes  
I float

So high i can't look below (You know I'd do anything for you)  
When you say my name I lose control  
And I start to float  
For you I float (Just ask me what you want me to do)  
And I never want this feeling to go  
I touch the sky and realize (And I, and I give, my best to you)  
One look in your eyes (Yeah yeah yeah yeah)  
I float
