

# Theme For A One Night Stand

Amiel

You took me by the hand  
Such a solemn man  
I knew I couldn't resist  
I'm trying to run  
But I just can't hide  
I just can't hide

Let me see your version of myself  
Let me be someone else  
Take me there I'm a fool tonight  
A fool tonight

Don't say you're mine  
No no  
I'm just a friend  
And in the end  
I'm gonna walk on by  
Don't be so kind  
No no  
I'm just a friend  
And even then this is just one night  
One night

Beautiful I am  
Won't let a stranger  
I thought I knew so well  
I'm trying to run  
But I just can't hide  
I just can't hide

You caught me with your smile  
And I can't leave  
What am I supposed to be  
What do you want from me

Don't say you're mine  
No no  
I'm just a friend  
And in the end  
I'm gonna walk on by  
And don't be so kind  
No no  
You're just a friend  
And even then  
This is just one night of my life

Even though I made the claim  
I don't understand the game  
So I'm gonna run away  
Hope and I pray I don't lose  
Every thought is spent on staying  
But now you are just a play thing  
So I'm gonna run away  
Down to the place  
Where I've used and used and used

Don't say you're mine

No no  
You're just a friend  
And in the end  
I'm gonna walk on by  
And don't be so kind  
No no  
You're just a friend  
And even then this is just one night
