

Closure

Amoral

A perfect smile, i cannot ruin
I look the way she pass me by
And, oh, i loved to be the target
This piece of glass helped me deny

All i wanted was some closure
A chance to move on with a smile
Now i know is not to happen
Not while i'm here, not in this life

Everytime it pass the emergency
It brings it right back to the start
Keeps reminding of the virgin
Forever carry it in my heart

All i wanted was some closure
A chance to move on with a smile
Now i know is not to happen
Not while i'm here, not in this life
