

## Wastelands

Amoral

Familiar only by the name  
Nothing else has stayed the same  
The one from days away has died  
When all was said you should've lied

Won't forgive, i won't forget  
No way back, the mind's been set  
Work that scar, don't let it heal  
Don't let it heal

If i told you soon i'll be gone  
Would your behavior change?  
Or would you still feel the need to  
Keep me out of range
