

Darkrooms

Amorphis

...roads
Roads of decay...
Craving for...

As much we gave
The more it will take...
Of your heart
It demands satisfaction...

Standing in these darkrooms
without the faces that i've left behind
Standing in these darkrooms
Without the faces that i've left behind

All of our ins, sins you have done
I see you falling on your knees
...of the desperation
The end is here, you start to believe
you stare into the black
kneel before your desire
It's the only chance that you have

Standing in these darkrooms
Without the faces that i've left behind
Standing in these darkrooms
Without the faces that i've left behind
