

# Grieve Stricken Heart

Amorphis

Your helping hand is killing me  
If you see me suffer it's not your victory  
Sadistic forms of new way discipline  
Like I love myself I love to sin

And I want more  
And I want it low  
Of course you wont forgive me  
But I wont crawl

Look out for number one  
I pray on you it has begun  
Let the night stand one thousand years  
Longstanding ,everlasting  
Breathless masquerade  
I'm your devil in disguise

And I want more  
And I want it low  
Of course you wont forgive me  
But I wont crawl

Grieve stricken heart  
Calls upon you  
Grieve stricken heart  
My only look you fools  
I love my misery too

I'm the one to see your collapse  
I'm on the side of destruction  
On the side of black and I love to sin  
Mentally transmitted disease  
Rotten wretched attraction  
And I love myself

And I want more  
And I want it low  
Of course you wont forgive me  
But I wont crawl

Grieve stricken heart  
Calls upon you  
Grieve stricken heart  
My only look you fools  
I love my misery too
