

## Stonewoman

Amorphis

You have a woman here  
One made of stone  
You made her for yourself  
You piled her up  
Made a stone face  
Stone fingers and eyes

There's no room beside her  
For another woman  
A live and breathing one

It makes me sad to see  
You have made a woman  
Out of rocks and wood  
Grasses and tree bark  
To lie beside you, beside you

I made that stone woman  
For you to see me and say  
I am here
