

# Burden

Amos Lee

I never meant to be a burden  
Oh I just worry more than I'd like to  
I never meant to be a burden  
Please forgive me if I've weighed on you

For so long I have lived amongst the shadows  
Waiting for the sun to break on through  
Oh it's time I cast my oars and head out on these shores  
And find some place where I can start anew

I never meant to be a burden  
Oh I just worry more than I'd like to  
I never meant to be a burden  
Please forgive me if I've weighed on you

Oh forgive if I've weighed upon your back  
It's so heavy already without me  
Going ahead into this abyss and find my own way out of this  
So you can walk ahead more easily

I never meant to be a burden  
But you're the light that is guiding me through  
I never meant to be a burden  
Please forgive me if I've weighed on you

Please forgive me if I've weighed on you  
Please forgive me if I've weighed on you
