

Bloody Justice

Amputated Genitals

I don't know how she could have poisoned them
The hunger, the desperation and pain got her mad
They were choked to death like rats
Our children were the only thing we had

I don't have anything now, but she must die
Hatred blinds me, what I want is to do justice with my own hands
I find her crying near to my children who dies in the kitchen
An intense noise in my ears and my blood pressure is about to collapse

My face turns red and my hands get cold
I start to hit her face then I try to see what is going on
With my children who are like pale and drooled bodies
She screams desperately

I hit her several times severed and brutally
But I know it's not enough
I take one knife from the kitchen
And I stab with it twice in her stomach

I reply to her pleasings
Feel how you are dying, how your heart begins to stop
How you begin to get pale and cold
I am going to help you to make it faster

I am going to cut your neck like a shot
There is nothing to do so
But my children can't go alone to the place they are going to
I have to join with them
