

Chessman Red Monday

Amputated Genitals

I see a car
40 year old woman
with a fat and stupid vanity
long brown hair, a lot of grease in her body
her sigh full of fear
I hit the side car window
With my red light lantern
I pull out of the car her yelling boyfriend
And I pack him in the trunk
She try to scape and I catch her inside the car
Strangling, and put her body in the bath
I rip her clothes,
I strangle her
And I put her humanity in the back seat
Cut her neck and let the blood flow.

Her blood exite me
with my fingers
Stain my chest, shulders and arms
I try to open her mouth

She drip a colorless muck
Introduce my dick in her mouth full of blood
A gush of blood mixed with my cum
Untouchable, Im not slowly and progresive like the lepra,

Im quick and mortal like pest,
I drop the body outside
With one hack break her skull
Then with the car, I grind her breast

I kneel, I put my dick in her mouth once again
Im a son of animals, wild animals
Slash and chop her nipples,
clean it with some blood
And I chew it like a gum
I leave the car meanwhile the flames
Consume the screams of the packed corpses
Im the red light bandit.

Burning her pale meat
And countinious with other woman
Near in one bar she die in one motel
