

# Bottle It Up

Amy Dalley

When you smile  
My Heart soaks it in  
And sometimes  
When I hold you  
The words float through my head  
Remember this  
Remember this  
And you dreams  
Give fire to this life  
And I see  
Everything brand new  
And it's all because of you  
You're like pure sunshine

(Chorus)  
I wanna bottle it up  
Drink it in  
This feeling  
This innocence  
Right here right now  
Gonna hold on tight  
I wanna lock it away  
Bury it deep  
In my heart sweet memories  
Time be a friend  
And refuse to fly  
I wanna take this love  
And bottle it up

There's a spark  
When you hold me close  
Every part  
Of me breathes it in  
And I think to myself  
I'm not letting go  
I'm not letting go

(Repeat Chorus)

Every little piece of  
Every little day with you  
Got it on repeat  
So I'm never gonna lose everything you are

(Repeat Chorus)

Bottle it up  
Bottle it up
