

# Loved Me Back To Life

Amy Dalley

I was breathing  
But not really feeling  
Just going through the motions  
Just like everybody else  
I was walking  
But might as well have been crawling  
Just spinning my wheels  
Thinking I was getting somewhere  
Then you came along

(Chorus)

You held me  
You didn't just touch  
You felt me  
And I fell for you  
You took the everyday and made it shine  
You opened my heart  
So big and wide  
No you didn't just love me  
You loved me back to life

I was trying  
But part of me was dying  
I didn't even know  
It 'til I looked into your eyes  
Now I imagine  
That anything can happen  
You make me feel invincible  
That it's all gonna be alright  
And I knew it when

(Repeat Chorus 2x)

No you didn't just love me  
You loved me back to life
