

Life's What You Make It

Amy Diamond

Mama said - don't be afraid
Go out there and find your way
Take what you get & make the best of it
That's the secret....

Papa told me - You live you learn
You play with fire , you might get burned.....
But what doesn't break you only makes you strong
That 's the secret..... so

Live every moment like it's your last
You wanna never say never
Walk through the wilderness with a laugh
A smile makes everything better

Life's what you make it
Life's what you make it

Go ahead - spread your wings
But don't forget the little things.....
Cause happiness is where you look for it
That's the secret....

Hit or miss - that's what it is
Grab the fun and run with it.....
Don't blow them golden opportunities
That's the secret..... so

Live every moment like it's your last
You wanna never say never
Walk through the wilderness with a laugh
A smile makes everything better

Life's what you make it
Life's what you make it

Gotta roll with the punches
Follow all your hunches
Go for what you know is right

The world is for your taking
You make your own breaks and
baby that's a given gift... what you make it
Life's what you make it

(CHORUS)
