

# My Name Is Love

Amy Diamond

My name is love - I'm your announcer  
You bring the heart - I'll bring the answers  
I need a few good men & women on my team

My name is love - your friendly partner  
I'm on alert cause my work's getting harder  
I need a few good people to rebuild my dream

These are uneasy times  
Good friends are hard to find  
In this life that we live

Reach out and lend your help  
Sit back - ask yourself  
Without me what are you  
Tell me what's the world coming to

We've got a lot of work to do  
We've got a lot of work to do

My name is love - I'm here to tell you  
The price of hate's getting way too familiar  
We need to stop it now before it's gone too far

You know my name - you know the mission  
So don't delay cause I crave your assistance  
We gotta go start mending all the broken hearts

These are uneasy times  
Good friends are hard to find  
In this life that we live

Reach out and lend your help  
Sit back - ask yourself  
Without me what are you  
Tell me what's the world coming to

We've got a lot of work to do  
We've got a lot of work to do

My name is love - I'm your announcer  
You bring the heart - I'll bring the answers  
I need a few good men & women on my team
