

Speed Of Light

Amy Diamond

I close my eyes and count to ten
You say my name I open them
Feels like ive been here before
Pacing the floor
What was I thinking
What does it mean anymore
Im not even sure
How did I get here

I need the speed of light
I need the speed of light
Im tripping to the past
Im tripping to the past
I need the speed of light
I need the speed of light
Im tripping to the past
To fix the future fast

I get so lost with you around
The more ive searched the less ive found
But its like im up to the flame
Im lying again
What was I thinking
Always pulling me in
Caught in a spinn
How did I get here

I need the speed of light
I need the speed of light
Im tripping to the past
Im tripping to the past
I need the speed of light
I need the speed of light
Im tripping to the past
To fix the future fast

This can't be life
This can't be love
This can't be right
This can't be us
This can't be life
This can't be love
This can't be right
This can't be us

I need the speed of light
I need the speed of light
Im tripping to the past
Im tripping to the past
I need the speed of light
I need the speed of light
Im tripping to the past
To fix the future fast
