

Up - uphup - up  
Up - up - uphup - up

All set, you bet, ready to go  
Anything can happen, nobody knows  
One step, two steps  
We're getting close to our destination  
Gonna put on a show  
Tonight can be all that imagined  
Everything we want and more  
As long as the music keeps on playing

Now won't you turn it up-up-up  
Louder don't stop  
Take me over, lift me up high  
You need to turn it up-up-up  
We're ready  
Ready for this evening, ready for the feeling  
Won't you turn it up

Up - uphup - up  
Up - up - uphup - up

Don't you hold back, no-no-no-no  
Let the rhytm lead you, anything goes  
Dance, or don't dance, do what you like  
Let the music elevate you,  
don't put up a fight  
Tonight can be all that imagined  
Everything we want and more  
As long as the music keeps on playing

Now won't you turn it up-up-up  
Louder don't stop  
Take me over, lift me up high  
You need to turn it up-up-up  
We're ready  
Ready for this evening, ready for the feeling  
Won't you turn it up

I wanna get lost in the night  
I wanna get lost in the feeling  
I wanna get lost in the night

In the music  
In the music
