

Up

Amy Diamond

Up - uphup - up
Up - up - uphup - up

All set, you bet, ready to go
Anything can happen, nobody knows
One step, two steps
We're getting close to our destination
Gonna put on a show
Tonight can be all that imagined
Everything we want and more
As long as the music keeps on playing

Now won't you turn it up-up-up
Louder don't stop
Take me over, lift me up high
You need to turn it up-up-up
We're ready
Ready for this evening, ready for the feeling
Won't you turn it up

Up - uphup - up
Up - up - uphup - up

Don't you hold back, no-no-no-no
Let the rhythm lead you, anything goes
Dance, or don't dance, do what you like
Let the music elevate you,
don't put up a fight
Tonight can be all that imagined
Everything we want and more
As long as the music keeps on playing

Now won't you turn it up-up-up
Louder don't stop
Take me over, lift me up high
You need to turn it up-up-up
We're ready
Ready for this evening, ready for the feeling
Won't you turn it up

I wanna get lost in the night
I wanna get lost in the feeling
I wanna get lost in the night

In the music
In the music
