

# Everywhere I Go

Amy Grant

I was wasting time  
Oh so sure to find somebody  
Who'll never go  
How could I know  
None I'd found was true  
None could be but you  
The only one love divine  
My heart, my mind are yours

R: Everywhere I go  
I see your face through the crowd  
Everywhere I go  
I hear your voice clear and loud  
Everywhere I go  
You are the light that I seek  
Everywhere I go  
You have found me

Where could my heart go  
Where you wouldn't know to find me?  
Far, far from here  
Still you are near to me

R:

I have seen you in the evening  
In the morning light you hold me  
Closer than the air around me  
You surround me always

Everywhere I go  
I see your face through the crowd  
I hear your voice clear and loud  
You are the light that I seek  
You have found me

R: (3x)
