

Everywhere I Go

Amy Grant

I was wasting time
Oh so sure to find somebody
Who'll never go
How could I know
None I'd found was true
None could be but you
The only one love divine
My heart, my mind are yours

R: Everywhere I go
I see your face through the crowd
Everywhere I go
I hear your voice clear and loud
Everywhere I go
You are the light that I seek
Everywhere I go
You have found me

Where could my heart go
Where you wouldn't know to find me?
Far, far from here
Still you are near to me

R:

I have seen you in the evening
In the morning light you hold me
Closer than the air around me
You surround me always

Everywhere I go
I see your face through the crowd
I hear your voice clear and loud
You are the light that I seek
You have found me

R: (3x)
