

Find A Way

Amy Lee

Take my hand, hold me close,
every breath's a gift..
We don't know what tomorrow holds,
but I know need you,
you show me the truth..
And I will reach you..
Somehow..

I will find a way,
build another world beyond the pain..
I'll find a way to keep you safe,
until the end of time..

I can't,
tears I've cried,
nothing in this world will move me..
I'm never gonna leave your side,
I want to see your face
and hide in your wake..
As long as you are with me..

I will find a way,
build another world beyond the pain..
I'll find a way to keep you safe,
until the end of..

Break the chains within your mind..
Fighting blindly through the dark,
I know you hear me,
I would give what I
If it would save you from this..

I will find a way,
build another world beyond the pain..
I'll find a way to keep you safe,
until the end of time..
