

Blood Brothers

Amy Shark

We see eye to eye
Happy to jump the line
See you in 3D
Cut my hand gently
Helping you make your bed
Waiting inside your head
You're giving away the ending
We should stop pretending

Doc says, "Girl, take one pill"
And you whisper double that, double that
What was I like before you?
Well I can't answer that, answer that
Wrap me up in secrets
And one day, we'll let it out, let it out
I can kiss you for free now
For free now

Why, why, why I feel like a million dollar bill
Hanging off your arm so chill
Hell no, I'm not like the others
We're the only blood brothers
Why, why, why I feel like a million dollar bill
Hanging off your arm so chill
How might we tell your mother
That I'm your little blood brother

You sit in my car
Like some superstar
On the count of 3
Lean in, check to listen
To the woods, it's me and you
And you like my uniform
I start work at 1PM
So we just fuck around 'til then

Doc says, "Girl, take one pill"
And you whisper double that, double that
What was I like before you?
Well I can't answer that, answer that
Wrap me up in secrets
And one day, we'll let it out, let it out
I can kiss you for free now
For free now

Why, why, why I feel like a million dollar bill
Hanging off your arm so chill
Hell no, I'm not like the others
We're the only blood brothers
Why, why, why I feel like a million dollar bill
Hanging off your arm so chill
How might we tell your mother
That I'm your little blood brother

All you are, all I said
Couldn't break apart and you're a little more dead
I feel my words won't work now, it's all I have

I want it, I want it, I want it more

Why, why, why I feel like a million dollar bill
Hanging off your arm so chill
Hell no, I'm not like the others
We're the only blood brothers
Why, why, why I feel like a million dollar bill
Hanging off your arm so chill
How might we tell your mother
That I'm your little blood brother
That I'm your little blood brother
That I'm your little blood brother
