

# I Said Hi

Amy Shark

I stand in the corner like a tired boxer  
One hand on my cheekbone, one hand on the rope  
And all my veins pump blood into my throat  
So I can hit the note, go do it all again

Tell 'em all I said hi (hi)  
Tell 'em all I said hi (hi)

And I lay half awake, thinking what's it's gonna take  
For my moment to arrive, so sick and paralyzed  
And I chew my gum on the left side of my mouth  
Wonder when I'll spit it out, yeah, I'm just getting started

Tell 'em all I said hi, hope you've been well  
You've been asleep while I've been in hell  
Tell 'em all I said hi, have a nice day  
I'll be just fine, don't worry 'bout me  
Tell 'em all I said hi (hi)

Lying on my side, watching time fly by  
And I bet the whole world thought that I would give up today  
Lying on my side, watching time fly by  
And I bet the whole world thought that I would give up today  
Lying on my side, watching time fly by  
And I bet the whole world thought that I would give up today  
Lying on my side, watching time fly by  
And I bet the whole world thought that I would give up  
Yeah, I bet the whole world thought that I would give up

Tell 'em all I said hi, hope you've been well  
You've been asleep while I've been in hell
