

# Foolish Heart

Amy Studt

Slowly on this wall  
I can't move or else I fall  
Just as you push me  
I think of how blind I've been  
All my demons and all my angels  
couldn't stick me back together again

You sacked me  
and say you'll do me no harm  
then you kick me  
while you bring me along for my rescue  
you sabotage me again  
all I've been through  
you said that you were my friend  
now time to pick up all the pieces  
of my foolish heart

foolish heart

go back to the hole  
the one which you crawled out from  
defend yourself  
you better learn to  
all your demons and all your angels  
won't be able to stick you back together again

You sacked me  
and say you'll do me no harm  
then you kick me  
while you bring me along for my rescue  
you sabotage me again  
all I've been through  
you said that you were my friend  
now time to pick up all the pieces  
of my foolish heart

You better sleep with one eye open  
You better cash in all your tokens  
Time to scream what can't be spoken  
You better leave before something gets broken

You gotta leave them now  
no, no, no, no, no-oh

You sacked me  
and say you'll do me no harm  
then you kick me  
while you bring me along for my rescue  
you sabotage me again  
all I've been through  
you said that you were my friend  
now time to pick up all the pieces  
of my foolish heart
