

# Do Me Good

Amy Winehouse

[Verse 1]

Do me good  
Got back together with my man last night  
But I think I was dreaming he didnt feel quite right  
I pressed his chest under my fingertips  
Beside myself I sighed and reminded of his lips

[Hook]

Im confused and quizical  
Funny dontcha know  
I just wan get physical  
Let me tell ya how

[Chorus]

Do me good I'll tell you anything you want to hear  
Do me good do me good do me good do me good  
Do me good and all this craziness will disappear  
Do me good do me good do me good do me good  
(We out)

[Verse 2]

Its like he was designed with me in mind  
Hes so good from behind  
Hes beautifully defined  
I miss him most of all when it got late  
Attempt to hear him breathing  
Or feel his shifting weight

[Hook]

Im confused and quizical  
Funny wontcha know  
I just wan get physical  
Let me tell ya how

[Chorus]

Do me good I'll tell you anything you want to hear  
Do me good do me good do me good do me good  
Do me good and all this craziness will disappear  
Do me good do me good do me good do me good  
(We out)

[Break]

[Chorus x3]
