Just Friends

Amy Winehouse

When will we get the time to be just friends It's never safe for us not even in the evening 'cos I've been drinking Not in the morning where your shit works It's always dangerous when everybody's sleeping And I've been thinking Can we be alone? Can we be alone?

When will we get the time to be just friends When will we get the time to be just friends

And no I'm not ashamed but the guilt will kill you If she don't first I'll never love you like her Though we need to find the time To just do this shit together For it gets worse I wanna touch you But that just hurts

When will we get the time to be just just friends When will we get the time to be just friends, just friends When will we get the time to be just friends, just friends When will we get the time to be just friends, just friends Just friends
