

# Camp Out

## An Horse

This is a song for the one that I love  
I haven't met them yet  
But I'm quietly confident

Although what if like you said  
All I'm looking for  
It doesn't exist  
Oh I have to believe it does

Cause it's okay to fall down  
It's okay to crumble  
I've seen this before  
I have seen this before

And you said you wanted to crawl down deep inside  
But at this point of the last year I am happy to be alive and

Like that good Hole album  
I could live through this  
I can live through worse  
So play it back in reverse  
Oh play it back in reverse

Cause it's okay to fall down  
It's okay to crumble  
I've seen this before  
I have seen this before and

You wanna camp out and I wanna screw around  
In the dark  
In the dark

But my hips won't give anything away  
Not tonight not to you  
but I think we both know you will stay

And I am surprised how this fits together  
I'm surprised how we fit together  
And that I will remember  
Oh and that I will remember

Cause It's okay to fall down  
It's okay to crumble  
I've seen this before  
I have seen this before  
And you wanna camp out and I wanna fuck around  
In the dark  
In the dark

But you need to know I'd do this all again  
Just to get where I am  
Just to get where I am  
And I let you know I'd do it all again  
Just to get where I am  
Just to get where I am
