

# The Harder We Fall

Ana Johnsson

Gone astray, it seems we lost our way  
Come to learn the price we pay  
Bought it all to fill the empty space  
How did it get this far

Lost track what we're looking for  
Got everything but we still want more  
When we've been drifting too far  
The harder we fall  
Going blind staring at the sun  
We feel on top as we come undone  
When we keep wanting it all  
The harder we fall

Wide awake but still I'm feeling numb  
I can't believe what we've become  
For all that's real I know we can't go on  
How did it get this far

Lost track what we're looking for  
Got everything but we still want more  
When we've been drifting too far  
The harder we fall  
Going blind staring at the sun  
We feel on top as we come undone  
When we keep wanting it all  
The harder we fall

And through it all, the fact remains the same  
We choose to fall 'cause we don't wanna change  
The higher we climb, the harder we fall

Gone astray, it seems we lost our way

Lost track what we're looking for  
Got everything but we still want more  
When we've been drifting too far  
The harder we fall  
Going blind staring at the sun  
We feel on top as we come undone  
When we keep wanting it all  
The harder we fall

The harder we fall
