

Hot Southern Night

Ana Popovic

You know Lucky, these younger man
They just don't please me right
You've got the tone and the chops
I know you can go all night
Let's get together baby
'cause you know this jam is right
Let's get together baby
it's a hot southern night
You know ladies my age ain't looking' for me no more
they think I can't do the things that I used to do before
but none of these young cats got it
they don't know what's going down
it's a hot southern night
and baby, guess who's in town
One good note is worth
a whole lot of shredding
I'm gonna plug this thing in
and see if you get ready
now I'll play the rhythm
and I'll let you take the lead
we'll play low down, dirty n sweaty
till it's too damn hot to breathe
It's all about the groove baby
You know just what I mean
I'm gonna leave a little space for you
and you can fill that in
I'm gonna fire it up till it's cooking
I'm gonna make you feel the steam
It's all about the rising
you know what they say about the cream
let's get together baby
cause you know we keep it tight
let's get together baby
it's a hot southern night
