

Before The World Ends

Anarbor

I like the way you look at me
There's some other guy tryna steal my scene
And you're kinda shy with a lipstick smile
But your eyes say it, your eyes say it

I can't wait for the mess to start
The crowd spilled with paper stars
The way you look at me across the bar
Well, your eyes say it, they keep sayin

Pull me closer, pull me in
I'll buy you a drink and we can do it again
Pull me closer, pull me in
Let me buy you a drink
Before the world ends

So follow me through these dead end streets
We'll make believe this vengeance city sleeps
The night goes on and on, on and on the night goes
So follow me
(Yeah)

Hesitation lures the enemy
Keep your mind on the lock and key
I know you want me to set you free
'Cause your eyes say it, they keep sayin

Pull me closer, pull me in
I'll buy you a drink and we can do it again
Pull me closer, pull me in
Let me buy you a drink
Before the world ends

So follow me through these dead end streets
We'll make believe this vengeance city sleeps
The night goes on and on, on and on the night goes
So follow me

In the morning you'll be over me
Rub your eyes I had the strangest dream
Disappear from your memory
But you feel it, still feel it
Still feel it, you still feel it!

So follow me through these dead end streets
We'll make believe this vengeance city sleeps
The night goes on and on, on and on the night goes
So follow me

So follow me through these dead end streets
We'll make believe this vengeance city sleeps
The night goes on and on, on and on the night goes
So follow me
