

Every High Has A Come Down

Anarbor

I'm paranoid, here you come again
We can't avoid, the walls are caving in
Blame it on chemicals badly reacting
Your poison's addicting, your body's distracting
I'm all strung out, I don't know where you've been
You led me down, this crooked path and then
You're twisting and turning, you're lighting and burning
All you can give me, it's cold and it's empty
But I'd still be with you, if only you let me

You're inside of me
Messing up my everything
But you don't care, you don't care
Your misery is looking for some company
And I was there, I was there
I was there in the clouds when you came around
Tell me why every high has a come down
Has a come down

You're haunting me, you're in my head again
You pull my strings, I'm just a puppet and
You keep control of a part of my soul
Is this never ending, 'cause I'm still admitting
I'd still be with you, if only you let me

You're inside of me
Messing up my everything
But you don't care, you don't care
Your misery is looking for some company
And I was there, I was there
I was there in the clouds when you came around
Tell me why every high has a come down
Has a come down, has a come down

You're inside of me
Messing up my everything
But you don't care, you don't care,
Your misery is looking for some company
And I was there, yeah

You're inside of me
Messing up my everything
But you don't care, you don't care
Your misery is looking for some company
And I was there, I was there
I was there in the clouds when you came around
Tell me why every high has a come down
Has a come down, has a come down

Tell me why every high has a come down [2x]
