

Same Song

Anastacia

Boy, these are crazy kinds
It nearly blows my mind living
In this messed up world
You're not the one to blame
But if it's all the same to you
We gotta get alone
New possibilities
living in this earless dream for show
We're gonna get them someday

From no hands up in the air
Living life without a care
So much for a soul to share
Underneath the sun
Dancing moving zaga zag
Come on, you'll all enjoy the ride
It won't be long
Cos we're all will singing the same song

Those empty promises
Of the things we never did I know
All we wanna say
There's something in this all
That makes his beautiful for show
There's gotta be a better way

From no hands up in the air
Living life without a care
So much for a soul to share
Underneath the sun
Dancing moving zaga zag
Come on, you'll all enjoy the ride
It won't be long
Cos we're all will singing the same song
Search tip we knew we'll find
Don't let it blow your mind
It's better everytime
Ohhhooo
The struggle on the street
The pressure and the heat
It never bothered me
Ohoo
I finish preaching now
So let me show you how
It's gonna be
I said you and me

New possibilities
Living in this earless dreams I know
We're gonna get them someday

From no hands up in the air
Living life without a care
So much for a soul to share
Underneath the sun
Dancing moving zaga zag
Come on, you'll all enjoy the ride

It won't be long
Cos we're all will singing the same song

Someday
From no hands up in the air
Living life without a care
So much for a soul to share
Underneath the sun

Someday
Dancing moving zaga zag
Come on, you'll all enjoy the ride
It won't be long
Cos we're all will singing the same song
