

Down

Anberlin

You would've loved who I used to be
Yesterday I would've hated the boy you see
When you found me I was at my worst
The best I was is a long forgotten curse

You caught me on my way down
Please hold my hand before I drown
Tie up my hands before I burn this town
You caught me on my way down

I feel like a shell of yester years gone by
Bad decisions like those that just won't die
I'm so sorry that I can't apologize
What comes next is another long good-bye

You caught me on my way down (hunny hunny)
Please hold my hand before I drown
Tie up my hand before I burn this town
You caught me on my way down

You caught me on my way down (oh hunny)
Please hold my hand before I drown
Tie up my hand before I, I burn this town

You caught me on my way down
Please hold my hand before I drown
Tie up my hands before I burn this town
You caught me on my way down
