

I'd Like To Die

Anberlin

I want to live like no one before
As if we'd found the world for us to explore
Don't want to die without you by my side
One and the same, one and the same

Let's take this slow
Slow down
Let's take it slow
Slow down

I'd like to die moments after you
If it were my choice, just seconds would do
I couldn't live outside of what we've known
One and the same now, so please take this slow

Take it slow
Slow this down, for me
Take it slow
Make this last (Make this last)
And take this slow (And take this slow)
We only have one chance to get this right
Make this last (Make this last)
And take this slow (Take it slow)
This may be our last chance tonight

Slow
Slow this down, for me
And take it slow
Make this last (Make this last)
Take this slow (Take it slow)
We only have one chance to get this right
Make this last (Make this last)
Take this slow (Take it slow)
This may be our last chance tonight

Make this last (Make this last)
Take this slow (Take this slow)
We only have one chance to get this right
Make this last (Make this last)
Take this slow (Take this slow)
This may be our last chance tonight
