

Knew Then Know Now

Anchor & Braille

Life is beautiful
Open your eyes
Whether you see it, believe it or not

It's not somewhere out there
Stand by your side
It's here in today
It's there there in your smile

Take it all in
Let it all go
Where you end up
Nobody knows

Feels like you can
Act like you don't
If life was a drown
Pretend that you float

If I knew then what I know now
I would tell myself again somehow
That life works out the way it should
Life works out the way it should

If I could go back in time awhile
I would tell myself to rest awhile
Don't worry about all that happened
What good life works out the way it should

Life is here and gone
No one denies
Live and we learn
Love then we die
So while we're young
Let's take all the town
Travel the world
Follow the sun
Don't wait till we're there
I know it seems wrong
But this road only takes
Those who are strong
Feeling the wind
Brushing your face
This is free from the human race
We're not the human race

(2x):

If I knew then what I know now
I would tell myself again somehow
That life works out the way it should
Life works out the way it should

If I could go back in time awhile
I would tell myself to rest awhile
Don't worry about all that happened
What good life works out the way it should
